READ ALOUD / ABOUT 45 SECONDS

Deborah Biddle began her career in corporate finance. When the numbers didn’t add up, her job was to find out what was driving them. Today she brings that same question to leadership: when the same problem keeps coming back, what’s keeping it in place?

She’s the founder of The People Company Consulting Group, a TEDx presenter, and the author of *No More Patch Jobs*. Her work helps leaders decide what to do next when a decision stalls, feedback is overdue, or someone raises a concern.

Please welcome Deborah Biddle.
